

Wounded Warriors go on kayak tour

The kayak tour started at Cornwall Landing.

Approximately 18 Wounded Warriors and veterans from the VA Hospital at Montrose and West Point went on a kayak tour from Cornwall Landing toward Plum Point on the chilly, gray morning of October 4.

The Moodna Creek Boys of New Windsor, a group of lifelong area residents who love kayaking, and members of Storm King Adventure Tours, supported the event.

Local military contractor DHS Technologies LLC provided one of its 195-square foot Deployable Rapid Assembly Shelter systems used by troops stationed around the world, and Congressman John Hall was also on hand.

“Let’s have fun today,” said Hall before the group headed for the kayaks and into the Hudson River.

After a short lesson, the group posed for a picture before heading into the Hudson River and toward Plum Point.
